

BASAMAK DEĞERLERİ VE ÇÖZÜMLEME

Verilen sayıların, basamak ve sayı değerlerini örnekteki gibi yapınız.

Aşağıdaki sayıları örnekteki gibi iki şekilde çözümleyelim.

$$2685 = 2000 + 600 + 80 + 5$$

$$= 2 \text{ binlik} + 6 \text{ yüzlük} + 8 \text{ onluk} + 5 \text{ birlik}$$

$$53105 = \dots$$

$$= \dots$$

$$23598 = \dots$$

$$= \dots$$

$$202015 = \dots$$

$$= \dots$$

$$528691 = \dots$$

$$= \dots$$

$$608561 = \dots$$

$$= \dots$$

$$578698 = \dots$$

$$= \dots$$

Aşağıda çözümlenmiş olarak verilen sayıları yazalım.

$$4 \text{ yüz binlik} + 9 \text{ on binlik} + 8 \text{ binlik} + 1 \text{ onluk} + 7 \text{ birlik} = \dots$$

$$5 \text{ yüz binlik} + 8 \text{ binlik} + 2 \text{ onluk} + 1 \text{ birlik} = \dots$$

$$7 \text{ on binlik} + 5 \text{ yüzlük} + 9 \text{ birlik} = \dots$$

$$1 \text{ yüz binlik} + 2 \text{ on binlik} + 3 \text{ yüzlük} + 4 \text{ onluk} + 5 \text{ birlik} = \dots$$

$$9 \text{ yüz binlik} + 2 \text{ on binlik} + 7 \text{ binlik} + 6 \text{ yüzlük} + 7 \text{ onluk} = \dots$$

$$5 \text{ yüz binlik} + 4 \text{ onluk} + 8 \text{ birlik} = \dots$$

$$900\,000 + 80\,000 + 300 + 10 + 1 = \dots$$

$$800\,000 + 20\,000 + 7000 + 800 + 5 = \dots$$

$$700\,000 + 3000 + 100 + 80 = \dots$$

$$500\,000 + 60\,000 + 3000 + 300 + 30 + 3 = \dots$$
