One More Advantage of the Internet

On these days, we are talking about advantages and disadvantages of the internet. People started to worry about the time their children spend in front of computers. Besides, children's forgetting their responsibilities, breaking safety rules and being asocial are among the things adults pay attention.

On the other side, of course it has beneficial sides such as keeping in touch with our friends, learning about the world etc. And now, there is one more "Learning at Home".

As everybody knows, we are having hard times because of covid-19 virus all over the world. The internet is filling the gaps. Just think that what would happen if children didn't know how to use the internet and technological devices or the internet didn't exist? It is hard to imagine.

Students can continue their studies without any need for place and time. So, it is easier for children to learn via the internet, but of course with the help of their teachers and parents mostly. We shouldn't ignore that.

7) According to the passage above, what is the newest advantage of the internet?

- A) The internet has good and bad effects on children.
- B) It allows children to learn at any place rather than schools.
- C) We can use the internet for online shopping.
- D) People should use it carefully, especially children.
