3. **Grace:** What are your daily activities?

**Jane :** I like doing sports. I get up early every day and I do heavy exercises. Later, I go to the pool. I stay there four hours a day. Also, I go jogging twice a week. It makes me feel good. I have a special diet. It makes me strong and gives me energy. I need it because I compete in races. I want to get a gold medal in breaststroke style this year.

**Which of the following is NOT correct about Jane?**

- A) She competes in surfing races.  
B) She prefers eating healthy food.  
C) She always gets up early.  
D) She likes jogging.

4. **Answer the question according to the passage below.**

Mete Gazoz is a Turkish sportsman. He won a gold medal at the 2020 Tokyo Olympics. His success comes from hard work. He always starts the day with a healthy breakfast. He does exercises for 4 hours a day. He shoots 450-650 arrows in every training. He never misses any trainings because he wants to become the champion at the next Olympics, too. In the evenings, he plays the piano because it is good for archery. He also plays computer games for half an hour to have fun before he goes to bed at 11 o'clock. On Sundays, he doesn't work out because he meets his friends.

**We understand from the text that Mete plays the piano because - - - .**

- A) he needs to have some fun  
B) he wants to be better in archery  
C) a sportsman needs to be disciplined  
D) spectators like his music

Answer the questions (5-6) according to the text below.

Mae Carol Jamison was born on October 17, 1956. She was an astronaut. She was always interested in science, so she studied Chemical Engineering at Stanford University. She graduated from the university in 1977. She started to work in NASA and became the first black woman to travel into space in 1992. She also won Ebony Black Achievement Award in the same year. Jamison left NASA in 1993 and decided to write a book. She published her first book *Find Where the Wind Goes* in 2001.

5. Which of the following questions DOES NOT have an answer in the text?

- A) What was her first book's name?
- B) Where did she study?
- C) Why did she leave NASA?
- D) What was her success as an astronaut?

6. According to the text, which of the following is ODD?

2001

1993

1992

1977

7. Samuel : What are you doing, dad?

Dad : I am reading an article about eagles.

Samuel : What does the article say about them?

Dad : It says eagles are in danger because environmental pollution kills them.

Samuel : - - - - ?

Dad : We should stop polluting their natural habitat.

Samuel : - - - - ?

Dad : They live in forests and mountains.

Samuel : - - - - ?

Dad : They usually hunt fish or small birds.

Which of the following questions DOES NOT Samuel ask his dad?

- A) Why are eagles in danger
- B) What do eagles eat to survive
- C) Where is eagles' natural habitat
- D) What should we do to protect them

8. Mammoths became extinct many years ago because humans hunted them. Mammoths were the relatives of elephants. Like their modern relatives, they were very large, too. The largest one reached 4 meters and weighed 8000 kg. They had long tusks. They ate grass, herbs, and tree leaves.

There is NO information in the text about mammoth's - - - - .

- A) size
- B) diet
- C) extinction
- D) habitat

TV TIMETABLE	
 	 
Programme: Wild America Time: 17.00	Programme: Ratatouille Time: 18.30
 	  
Programme: Masterchef Time: 16.30	Programme: Sharks 101 Time: 17.30

Which programme is suitable for Lola and her sister?

- A) Wild America                      B) Ratatouille  
C) Masterchef                         D) Sharks 101

10.

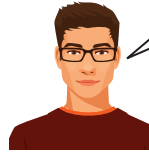

Hi, I am Lena. I sometimes watch TV in the evenings. I like soap operas, and Desperate Housewives is my favourite. I rarely watch the news with my dad. I think documentaries and quiz shows are really educative. However, I always change the channel when commercials are on because they are too long and I hate that.

According to the information above, which of the following DOES NOT Lena watch?

- A) 
- B) 
- C) 
- D) 

11.

David

Hi, George! I am organizing a fancy dress party on Sunday. We'll have so much fun! My favourite DJ will perform as well. Would you like to come?

I'd love to, but I'll be out of town this weekend.

George

According to the dialogue above, George

-----

- A) accepts David's invitation  
B) refuses the invitation because he doesn't have a costume  
C) can't join the party because he will be in another town  
D) won't go to the party because he doesn't like the DJ

12.

### How to Organize a Fancy Dress Party?

- (I) Then, you should choose your costume.  
(II) Finally, you should prepare food and beverages.

- D) shopping mall

17.

I think people produce so much waste. We must sort out the waste materials, transform and reuse them because they pollute seas and land. **Joanne**

Deodorants, room sprays and other chemicals harm ozone layer. To me, we should prefer natural products. **Henry**

This is not only our planet. There are other living things on Earth. In my opinion, we must protect animals. **Jill**

I think a better world is not a dream. We must decrease our waste, recycle some materials and be more eco-friendly. **Joe**

**According to the speech bubbles above, who talks about recycling?**

- A) Joanne and Joe                      B) Joanne  
C) Jill and Henry                      D) Joe

18.

Good evening! Turkey is on fire! Firefighters and fire planes work hard to take the fire under control. How did these fires start? What are our responsibilities for nature? I think these are the questions that we have to answer. Forests are a very important part of nature, and we need nature to survive. They are also very important for us because they produce oxygen. They are also home to wild animals. We should protect wild animals, too because they are important for the balance of the nature.

**According to the news, which of the following is NOT correct?**

- A) We should protect forests because we need them for oxygen.  
B) Forest are important because we get wood from them.  
C) We are responsible for nature because it is necessary for humans to survive.  
D) Protecting wild animals is important because they keep the balance of the nature.

19.

SOLAR SYSTEM		
Planet	Size (km)	Moons
Earth	12742	1
Mars	6778	2
Jupiter	139822	79
Saturn	116464	83

**Which of the following is NOT correct according to the chart?**

- A) Mars is the smallest planet of all planets in the chart.  
B) Earth is larger than Saturn.  
C) Jupiter has got more moons than Earth has.  
D) Saturn has got more moons than Jupiter has.

20.

Hello my dear readers!

Today, I will give you some information about the planets. As you all know, there are 9 planets in our solar system. Astronomers discovered Mercury, Venus, Mars, Jupiter, and Saturn in the ancient times because they are close to the Earth. They could also see those planets easily without a telescope. They discovered the other planets later. For example, Uranus was the first new planet. English astronomer Sir William Herschel discovered it in 1781.

Jack

**Which question does Jack answer in his blog?**

- A) Who discovered the satellites?  
B) When was the comets in our solar system discovered?  
C) When was Uranus discovered?  
D) Is there life in Uranus?
