

MATEMATİK

Çalışma Kağıdı:1

Tam Sayılarla İşlemler-1

1)Aşağıdaki işlemleri sayı doğrusunda gösteriniz.

✓ $(+6) + (+3) =$

✓ $(-7) - (+3) =$

✓ $(-5) - (-4) =$

✓ $(+6) + (+6) =$

✓ $(-7) + (-7) =$

✓ $(-3) + (-5) =$

✓ $(-9) - (-4) =$

2)Aşağıdaki işlemleri sayı pulları ile modelleyiniz.

✓ $(+5) + (+2) =$

Three empty rounded rectangular boxes arranged horizontally, separated by a plus sign and an equals sign.

✓ $(-6) + (+2) =$

Three empty rounded rectangular boxes arranged horizontally, separated by a plus sign and an equals sign.

✓ $(-7) - (-5) =$

Three empty rounded rectangular boxes arranged horizontally, separated by a minus sign and an equals sign.

✓ $(-9) + (+4) =$

Three empty rounded rectangular boxes arranged horizontally, separated by a plus sign and an equals sign.

✓ $(-3) - (-4) =$

Three empty rounded rectangular boxes arranged horizontally, separated by a minus sign and an equals sign.

3)Aşağıda verilen tabloları doğru bir şekilde doldurunuz.

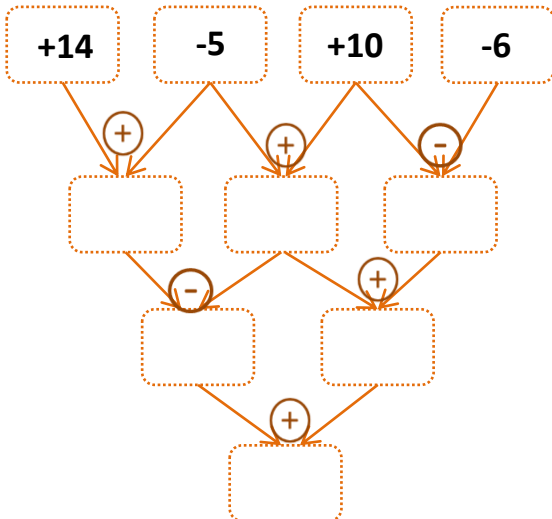

✓

+	+5	+7	-8	-4
+6				
-4				
-3				
+2				

✓

-	+5	+7	-8	-4
+6				
-4				
-3				
+2				

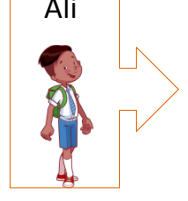

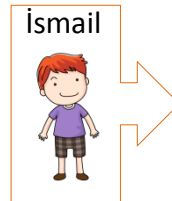

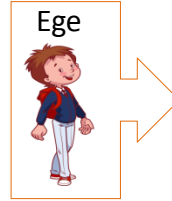

4)Aşağıdaki boş kutulara gelmesi gereken sayıları bulunuz.

5)Yandaki İsmailoğulları apartamanın da giriş kat ile birlikte 12 kat bulunmaktadır. Arda Ege'nin 6 kat altında, Ali Ege'nin 3 kat üstünde, İsmail Ali'nin 5 kat altında oturmaktadır.

Binanın -2.katında bulunan otoparka aracını park eden Arda asansörle 4 kat yukarı çıktığında evine ulaştığına göre,

Her birinin oturduğu katları ayrı ayrı bulunuz.

6)Aşağıdaki sayıların arasına doğru matematik sembolü yerleştirerek doğru sonuca ulaşınız.

✓ $(+15) \bigcirc (-4) \bigcirc (+6) = +13$

✓ $(-20) \bigcirc (-5) \bigcirc (+3) = -22$

✓ $(+30) \bigcirc (-12) \bigcirc (-4) = +22$

✓ $(-40) \bigcirc (-2) \bigcirc (+12) = -54$

✓ $(+96) \bigcirc (-40) \bigcirc (-6) = +50$

✓ $(-120) \bigcirc (-35) \bigcirc (+23) = -178$
